**Reasons for Allowance**

1. The following is an Examiner's Statement of Reasons for Allowance:  
Claims 1, 3-11 and 13-32 are allowable over the prior art of record.
2. The examiner has found that the prior art of record does not teach or suggest or render obvious determining, at a particular time, whether a current presence state of an instant messenger (IM) client corresponds to an activity status indicated by schedule information corresponding to a given user, wherein said current presence state indicates an IM presence status of said given user, wherein said schedule information is stored by a calendar application, and wherein said activity status includes a corresponding event title that is specifically descriptive of said given user's activity at said particular time and in response to determining that the current presence state does not correspond to said activity status indicated by said schedule information, automatically assigning and storing a different presence state for said given user without intervention by said given user, such that subsequent to automatically assigning said different presence state to said given user, said different presence state is indicated by said instant messenger client as said given user's current presence state , as set forth in the specification and recited in the independent claims.
3. To clarify the record, the term **"computer- accessible storage medium"** has been interpreted in view of current case laws to cover only **"non-transitory"** computer-accessible storage media.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "*Comments on Statement of Reasons for Allowance*"
